About Us

Real Group, which has been operating in many different sectors, especially in construction and textile since 1989, is an organization that continues to grow by transferring its experiences from the past to future generations.

We have always adopted the principle of adding value to life and our country with a people-oriented approach in our housing projects that we have brought to the construction sector and the high technology utilized in our infrastructure projects.

Today, we continue our operations successfully in many sectors and continue on with the vision of continuous growth with our valuable business partners and stakeholders.

T

Projects

Mixed Use Projects

RealMerter is a mixed use project that brings together all textile wholesalers and retailers in a modern and prestigious business center with professional management and innovative “Wholesale Textile Mall” approach, offering business, life and investment opportunities together with its central location, proximity to transportation axes, prestigious stores and residences, rich social facilities.

REAL MERTER
İstanbul - Türkiye
2015
90.000 m²

Projects

Mixed Use Projects

Built in Zeytinburnu, the heart of Istanbul, BAB Istanbul is a project that stands out with valuable commercial areas, while challenging the residences in the region with a modern and horizontal architecture. With technological infrastructure, location and the spectacular sports complex next to it, **BAB İSTANBUL is Istanbul's new gateway to entertainment.**

BAB İSTANBUL
İstanbul - Türkiye

Our Specialty

“Our Quality Policy...”

Quality

Based on customer needs, we adopt maximizing our standards as our quality policy.

Reliability

We work with all our strength to protect the trust of our valuable stakeholders with our competent employees and valuable business partners who are experts in their fields from the design stage to the manufacturing stage.

Experience

We continue to grow by transferring our experiences from the past to the future generations and improve our corporate memory every day.

Sustainability

We develop and construct our projects in accordance with conditions based on cost, time and quality elements, which are indispensable for sustainability.

Philosophy

————— “People-oriented approach...”

As Real Group, we have been working for more than 30 years in various sectors, particularly in construction and textiles.

We continue to work with a full-service approach, professional staff, innovative designs, advanced technology, high speed and most importantly, a people-oriented approach.
